

What are Funds?

The Cboe Australia Funds market includes both Exchange Traded Funds (ETFs) and Quoted Managed Funds (QMFs). ETFs are passively managed funds that track a particular index whereas QMFs are funds that are rules based, actively managed or hold only single assets.

Easy to access

Trade, clear and settle in the same way as shares

Invest your way

Invest in or give exposure to underlying assets and the value of the fund depends on the investment performance of those underlying assets

Robust & transparent

Have underlying assets with robust & transparent price discovery mechanisms, and which currently include equity, fixed income, currency, commodity and crypto assets.

How do I buy Funds?

You buy funds the same way you buy other Australian securities. Investors should read the PDS (product disclosure statement) before making any investment decisions. Visit cboe.com.au/funds

Cboe Funds

Talk to your adviser or broker about how to invest, or contact one of the brokers listed on the Cboe Australia website cboe.com.au/trading-information/trading-participants
